The Certified Emergency Nurse (CEN) Certification is prestigious and a nationally recognized credential. The Clinical Analysis preparation program is an intensive course designed primarily for individuals seeking certification in the emergency nursing area. The program will ensure that you have the knowledge and skills to pass the certification exam administered by the Emergency Nurse's Association (ENA). Our history of certification reviews is longstanding with an impeccable success record.

The program is a thorough review of the content areas designated most important by ENA. You and your fellow participants will have the benefit of experienced CAM instructors that have remained current in the industry. Each instructor has a unique ability to break down the most complicated critical care concepts into understandable and useful pieces of knowledge. Our courses have successfully reviewed thousands of participants for certification. Even if you are not seeking certification, the knowledge you take away from this course will enhance your practice and benefit your patients.
